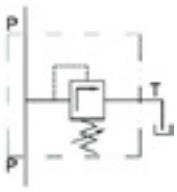
Pressure Relief Valves

Single Pressure Relief valves inline
Various port configerations flow rates up to 180 l/min.

Pressure Relief Valve — Direct Acting CP



Part Number	bsp	Max Flow l/min	Max Pressure bar	Spring X adj. bar	Spring U adj. bar	Spring K adj. bar Standard
CP 20 14	1/4”	20	350	10-100	20-230	100-350
CP 40 38	3/8”	40	350	10-100	20-230	100-350

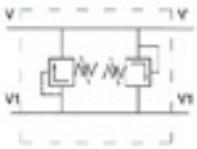
Pressure Relief Valves

Dual Pressure Relief valves inline and Single & Dual Relief valves for Hydraulic Motor mounting, flow rates up to 150 l/min.

Dual Pressure Relief Valve — Direct Acting CP DI/L

Part Number	bsp	Max Flow l/min	Max Pressure bar	Spring X adj. bar	Spring U adj. bar	Spring K adj. bar Standard
CP DI L 40 38	3/8”	40	350	10-100	20-230	100-350
CP DI L 80 12	1/2”	80	350	10-100	20-230	100-350
CP DI L 80 34	3/4”	80	350	10-100	20-230	100-350
CP DI L 150 34	3/4”	150	350	10-100	20-230	100-350
CP DI L 150 10	1”	150	350	10-100	20-230	100-350

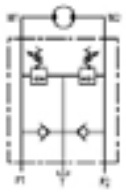


Hydraulic Motor Mounting Pressure Relief Valve — VAU

Part Number	Type	bsp	Max Flow l/min	Max Pressure bar	Standard Pressure Range bar
VAU 1/2” SE OMP OMR	Single	1/2”	60	350	30-180
VAU 1/2” SE OMP OMR SF	Single with Brake Release	1/2”	60	350	30-180
VAU 1/2” DE OMP OMR	Dual	1/2”	60	350	30-180
VAU 1/2” DE OMP OMR SF	Dual with Brake Release	1/2”	60	350	30-180
VAU 1/2” SE OMS	Single	1/2”	50	350	30-180
VAU 1/2” DE OMS	Dual	1/2”	50	350	30-180
VAU 1/2” DE OMS SF	Dual with Brake Release	1/2”	50	350	30-180
VAU 3/4” DE OMT	Dual	3/4”	100	350	30-180

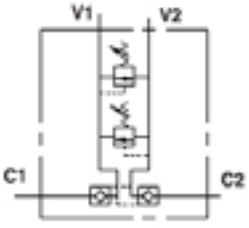
Dual Pressure Relief Valve -c/w Anti-cavitation valves — VAUAC

Part Number	Type	bsp	Max Flow l/min	Max Pressure bar	Standard Pressure Range bar
VAUAC 3/8”	Dual with Anti-cavitation	3/8”	45	350	10-180
VAUAC 1/2”	Dual with Anti Cavitation	1/2”	70	350	10-180
VAUAC 3/4”	Dual with Anti Cavitation	3/4”	110	350	10-180



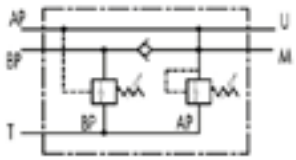
Dual Relief Valve -c/w Pilot Operated Check valves — VBLP

Part Number	Type	bsp	Max Flow l/min	Max Pressure bar
VBLP 3/8”	Dual with Pilot Operated Check valves	3/8”	35	350
VBLP 1/2”	Dual with Pilot Operated Check valves	1/2”	70	350
VBLP 3/4”	Dual with Pilot Operated Check valves	3/4”	110	350



Dual Pump 'Hi-Low' Unloading Valves & Pressure Reducing Valves

Dual Pump 'Hi-Low' Unloader valve, Inline body — VABP



Part Number	AP Flow l/min	BP Max Flow l/min	T Max Flow l/min	Max Pressure bar	AP Pressure Range bar	BP Pressure Range bar	AP bsp	BP/U bsp	T bsp
VABP 38	20	40	60	350	50-350	20-80	1/4"	3/8"	1/2"

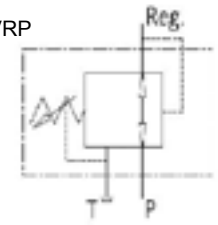
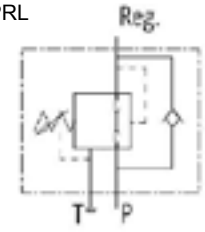
Pressure Reducing valves Direct Acting, with or without Check valve — VRP/VRPRL

VRP



Part Number	P,T, Reg. bsp	Max Flow l/min	Max Pressure bar	Standard Setting range bar	Optional Setting range bar
VRP 3/8"	3/8"	30	350	35-180	10-60
VRP 1/2"	1/2"	30	350	35-180	10-60
VRPRL 3/8"	3/8"	30	350	35-180	10-60
VRPRL 1/2"	1/2"	30	350	35-180	10-60

VRPRL



Shuttle valves, Regenerative valve & Brake Unclamping valves

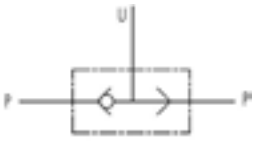
Pressure Switch — Type LPS

Piston switch, large pressure control range and precise adjustment
Switching frequency up to 300 times per minute

Part Number	Adjustment Method	bsp	Adjustment range bar	Max Pressure bar
LPS-7.5-HS	ROTARY KNOB	1/4”	30-75	350
LPS-14-HS	ROTARY KNOB	1/4”	75-140	350
LPS-21-HS	ROTARY KNOB	1/4”	140-210	350
LPS-35-HS	ROTARY KNOB	1/4”	210-350	350

Shuttle Valve — VUSF/VU2P

Part Number	bsp	Material	Max Flow l/min	Max Pressure bar
VUSF 140	1/4”	Steel	20	350
VUSF 380	3/8”	Steel	40	350
VU2P 3/8”	3/8”	Steel	45	450
VUSF 120	1/2”	Steel	60	350
VU2P 1/2”	1/2”	Steel	70	450
VU2P 3/4”	3/4”	Steel	110	350
VU2P 1”	1”	Steel	150	300



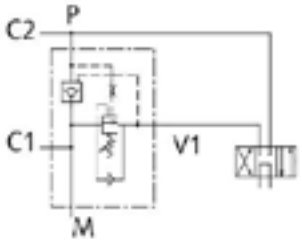
VU2P

VUSF

Regenerative Valve — VRSP

The flow returning into the valve from port C1 will be added to the pump flow ‘P’ to give an increased speed of movement in one direction with maximum Thrust.

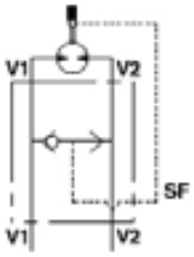
Part Number	bsp	Max Flow l/min	Pilot Ratio	Pressure range bar
VRSP 1/2”	1/2”	60	1:4.5	60-350



Brake Unclamping Valve — VSBF

This valve is mounted directly onto OMP, OMR & OMS type motors and is used to unlock the motors hydraulic brake

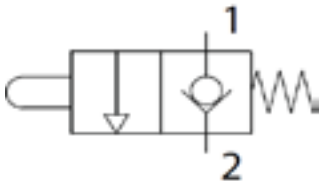
Part Number	bsp	Max Flow l/min	Maximum Pressure bar
VSBF 1/2” OMP/OMR	1/2”	60	60-350
VSBF 1/2” OMS	1/2”	40	60-350



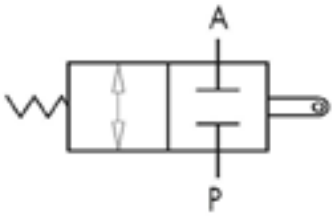
2 Way End Run Valves

Mechanical spool Operation
1/4” bsp up to 3/4” bsp

End Stroke Valve — Normally Closed — FCM / V-NC / V-FCR2T

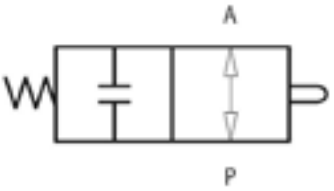


Normally Closed	bsp	Max Flow l/min	Max Pressure bar
FCM140	1/4”	40	350
FCM380	3/8”	40	350
FCM120	1/2”	60	300
V101-3/8”-NC	3/8”	50	350
V-121-1/2”-NC	1/2”	70	350
V-201-3/4”-NC	3/4”	100	350

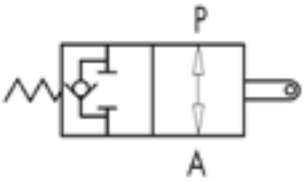


Normally Closed	bsp	Max Flow l/min	Max Pressure bar
V-FCR2T-60	3/8”	60	350
V-FCR2T-80	1/2”	80	350
V-FCR2T-120	3/4”	120	350

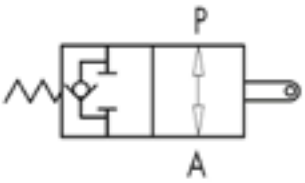
End Stroke Valve — Normally Open — V-NA/ V-FCR1T



Normally Open	bsp	Max Flow l/min	Max Pressure bar
V-101-3/8”-NA	3/8”	45	350
V-121-1/2”-NA	1/2”	60	350



Normally Open with Check valve	bsp	Max Flow l/min	Max Pressure bar
V-101-3/8”-NA-VU	3/8”	45	350
V-121-1/2”-NA-VU	1/2”	60	350



Normally Open	bsp	Max Flow l/min	Max Pressure bar
V-FCR1T-60	3/8”	60	350
V-FCR1T-80	1/2”	80	350
V-FCR1T-120	3/4”	120	350

2 Way Solenoid Operated Poppet Valves

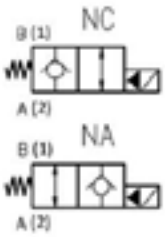
Steel Bodied up to 350 bar, 1/4” bsp up to 1 1/4” bsp

2 Way Poppet Valve High Pressure Steel bodied — VAS

VAS Valves are checked in only one direction when in the closed position allowing free flow in the other direction. Available in all DC & AC Voltages.

Normally Open	bsp	Max Flow l/min	Max Pressure bar
VAS-NA-14	1/4”	40	320
VAS-NA-38	3/8”	50	320
VAS-NA-12	1/2”	70	320
VAS-NA-34	3/4”	70	320
VAS-NA-100	1”	150	320
VAS-NA-114	1 1/4”	260	350

Normally Closed	bsp	Max Flow l/min	Max Pressure bar
VAS-NC-14	1/4”	40	320
VAS-NC-38	3/8”	50	320
VAS-NC-12	1/2”	70	320
VAS-NC-34	3/4”	70	320
VAS-NC-100	1”	150	320
VAS-NC-114	1 1/4”	260	350



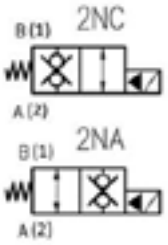
N.B. The 1 1/4” bsp valve has a closed path from port B(1) to port A(2) ; a different port configeration than all other valve sizes which are port A(2) to port B(1).

2 Way Poppet Valve, Dual Check — VAS-2

VAS-2 Valves are checked in both directions when in the closed position. Available in all DC & AC Voltages.

Normally Closed	bsp	Max Flow l/min	Max Pressure bar
VAS-2NC-14	1/4”	40	320
VAS-2NC-38	3/8”	50	320
VAS-2NC-12	1/2”	70	320
VAS-2NC-34	3/4”	70	320
VAS-2NC-100	1”	150	320
VAS-2NC-114	1 1/4”	260	350

Normally Open	bsp	Max Flow l/min	Max Pressure bar
VAS-2NA-14	1/4”	40	320
VAS-2NA-38	3/8”	50	320
VAS-2NA-12	1/2”	70	320
VAS-2NA-34	3/4”	70	320
VAS-2NA-100	1”	150	320
VAS-2NA-114	1 1/4”	260	350



N.B. The 1 1/4” bsp valve has a closed path from port B(1) to port A(2) ; a different port configeration than all other valve sizes which are port A(2) to port B(1).

Manual Emergency Valve — VEM

Normally Closed, button is pushed in to allow flow

Part Number	bsp	Max Flow l/min	Max Pressure bar
VEM 12	1/2”	70	350

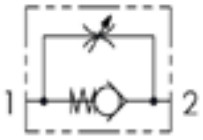
Flow Control Valves

Speed and Needle Control valves
1/8” bsp up to 1 1/2” bsp
Suitable for panel mounting with seperate lock nut

Flow Control Valve, Bi Directional & Uni Directional Flow — STBF/STUF

Panel Mount model supplied with Spindle Mounting Nut

Bi Directional Valve	bsp	Max Flow l/min	Max Pressure bar
STBF 180	1/8”	10	400
STBF 140	1/4”	15	400
STBF 380	3/8”	30	400
STBF 120	1/2”	50	400
STBF 340	3/4”	80	400
STBF 100	1”	150	400
STBF 114	1 1/4”	200	300
STBF 112	1 1/2”	300	300



Uni Directional Valve	bsp	Max Flow l/min	Max Pressure bar

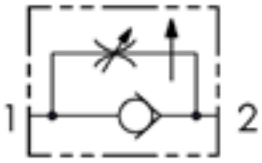
Flow Control Valves

Compensated Speed & Needle Control valves &
Lockable Priority Adjustable Flow Control

Pressure Compensated Flow Control, Uni Directional Flow — VRC

The flow rate is constant despite load variations (downstream pressure)

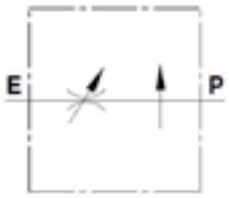
Uni Directional Valve	bsp	Max Flow l/min	Max Pressure bar
VRC 140	1/4”	10	250
VRC 380	3/8”	18	250
VRC 120	1/2”	33	250



2 port Flow Compensated Control Valve — 350 Bar Rated — RFP2

The flow rate is constant despite changes in the inlet pressure

Part Number	bsp	Max Inlet Flow l/min	Max Pressure bar
RFP2 3/8”	3/8”	30	350
RFP2 1/2”	1/2”	50	350
RFP2 3/4”	3/4”	90	350
RFP2 1”	1”	160	350



Lockable Priority Adjustable Flow Divider — 114 l/min — 207 bar — FC51
Cast body

Part Number	bsp	Max Inlet Flow l/min	Max Pressure bar
FC51 G1/2”	1/2”	114	207
FC51 G3/4”	3/4”	114	207

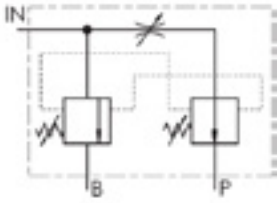
Priority Adjustable Flow Control Valves

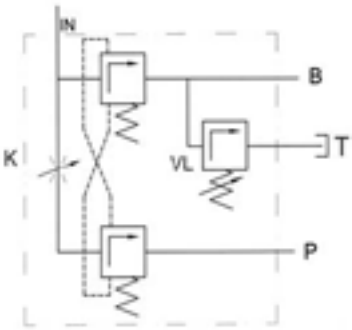
Pressure Compensated Priority Adjustable Flow Control Valves , 3/8” bsp up to 1” bsp

Priority Adjustable Flow Divider Cast body — RFP



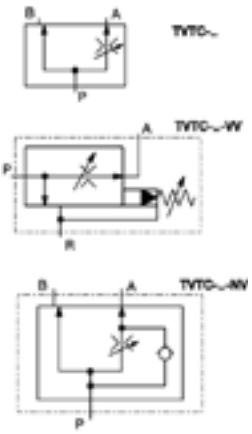
Part Number	bsp	Max Inlet Flow l/min	Maximum Pressure bar
RF 40P	3/8” & 1/2”	40	250
RF 70P	1/2” & 3/4”	80	250

Priority Adjustable Flow Divider with Pressure Relief Valve Cast body — RFPV



Part Number	bsp	Max Inlet Flow l/min	Max Pressure bar	Pressure Relief Valve setting bar
RF 70 PVX	1/2” & 3/4”	80	250	70(10-100)
RF 70 PVU	1/2” & 3/4”	80	250	140(50-230)
RF 70 PVK	1/2” & 3/4”	80	250	200(100-250)

Priority Adjustable Flow Divider, Precise adjustment Steel Body — TVTC



Part Number	bsp	Max Flow l/min	Adj. Range l/min	Operating Pressure bar
TVTC-12	1/2” & 3/4” P	32	1 to12	5 up to 350
TVTC-25	1/2” & 3/4” P	65	1 to 25	5 up to 350
TVTC-50	1/2” & 3/4” P	65	1 to 50	5 up to 350
With Pressure Relief				
TVTC-12-VV	1/2” & 3/4” P	32	1 to12	5 up to 350
TVTC-25-VV	1/2” & 3/4” P	65	1 to 25	5 up to 350
TVTC-50-VV	1/2” & 3/4” P	65	1 to 50	5 up to 350
With Reverse Flow				
TVTC-12-NV	1/2” & 3/4” P	32	1 to12	5 up to 350
TVTC-25-NV	1/2” & 3/4” P	65	1 to 25	5 up to 350
TVTC-50-NV	1/2” & 3/4” P	65	1 to 50	5 up to 350

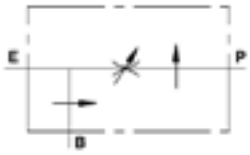
Priority Adjustable Flow Control Valves

Pressure Compensated Priority Adjustable Flow Control Valves
3/8” bsp up to 1” bsp

Priority Adjustable Flow Divider — VPR3

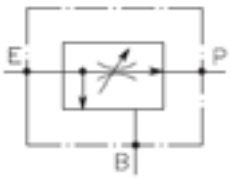
Suitable for on going pressure line. Steel Body

Part Number	bsp	Max Inlet Flow l/min	Max Priority Flow l/min	Max Pressure bar
VPR3 38	3/8”	60	50	350
VPR3 12	1/2”	80	60	350
VPR3 34	3/4”	120	100	350
VPR3 10	1”	200	170	350



Priority Flow Control Combination type High Flow Aluminium Body — VRF3V

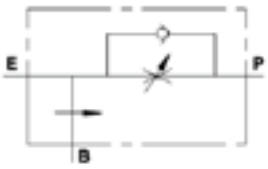
Part Number	bsp	Max Inlet Flow l/min	Max Priority Flow l/min	Max Pressure bar
VRF3V-114	1 1/4”	380	210	210



Priority Adjustable Flow valve c/w reverse flow check — RFP3 VU

The integrated check valve allows return flow through the valve. Steel Body

Part Number	bsp	Max Inlet Flow l/min	Max Priority Flow l/min	Max Pressure bar
RFP3 38 C/VU	3/8”	60	50	350
RFP3 12 C/VU	1/2”	80	60	350



Direct Mounting Flow Control — RFP3 OMP/OMR/OMS

3 port Flow Control direct mounting to OMP/OMR/OMS type motors, excess flow to tank

Part Number	bsp	Max Inlet Flow l/min	Max Priority Flow l/min	Max Pressure bar
RFP3 OMP/OMR	1/2”	60	50	350
RFP3 OMS	1/2”	60	50	350

Monoblock Directional Control Valves

BM Series Monoblock Valves
Various Control options available

With flow rates from 25 l/min (1/4”) up to 190 l/min (1”), and options of actuation including.. manual lever, pneumatic control, remote cable (Single or Joystick), electric solenoid, lever and solenoid, hydraulic pilot, or cam operation we have the valve solution available for your application.

Our valve spools are ‘metered’ to give greater feel and control

All valves are supplied complete with levers and a Pressure relief valve as standard.

Log Splitter Valves

Available in various sizes with Kick off and regenerative function if required

Kick off valves

Single lever valves with kick out work when the operator moves the lever to send the cylinder out to split a log, then moves the lever to retract the cylinder after the log is split, the cylinder will return to its full retraction and then the valve lever will 'automatically' return to the neutral rest position. The 'kick out' pressure in the valve is preset to 70 bar. The valves can also be supplied with a regenerative spool giving faster extension speed for the cylinder.

Valve with Kick off function	Maximum flow l/min	Kick off Pressure bar	Maximum Pressure bar	P&T Ports bsp	A&B Ports bsp

BM30 with Kick Off

Rotary Spool Valves

Single rotary lever valves in various sizes

MR Rotary lever valves

The rotary lever can be moved to various positions and this regulates the flow to the actuator
Our Rotary valves are ideal for Marine applications, for example the
flow rate can be changed to suit the conditions of the sea.
A high quality 'Dacromet' surface treatment is applied as standard to prevent corrosion

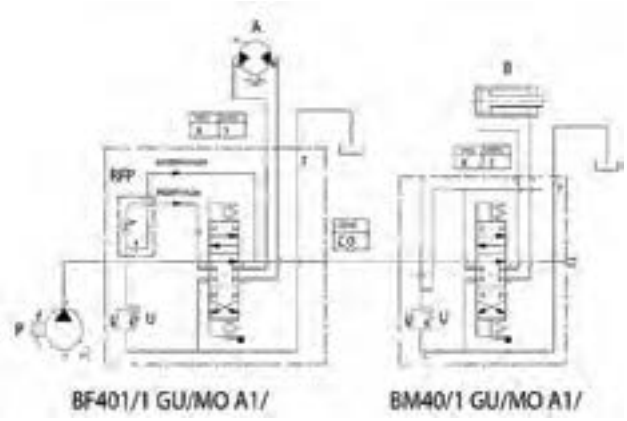
Monoblock With Priority Adjustable Flow Control

The BF range of mono block valves derive from the BM series. They differ from them by having a built in priority adjustable and pressure compensated flow regulator (RFP) or two way Integrated pressure compensated flow regulator (RFS) in the Inlet of the valve.

With the RFP version the exceeding flow is recuperated into the system and allows the simultaneous use of the two spools, the first spool has the priority flow (PF) and the second spool the exceeding flow (EF). An RFS version is also available where the exceeding flow (EF) goes to the tank.

An important factor in the BF valves is that the flow regulator is only in function when a spool receiving the priority flow is actuated, on the contrary the oil goes to the tank without the flow regulator being actuated. Therefore without loss of flow or heating. The standard downstream spools get the exceeding flow when the priority spool is operated and the entire oil flow when it is not operated. One or more Priority spools are available in a valve.

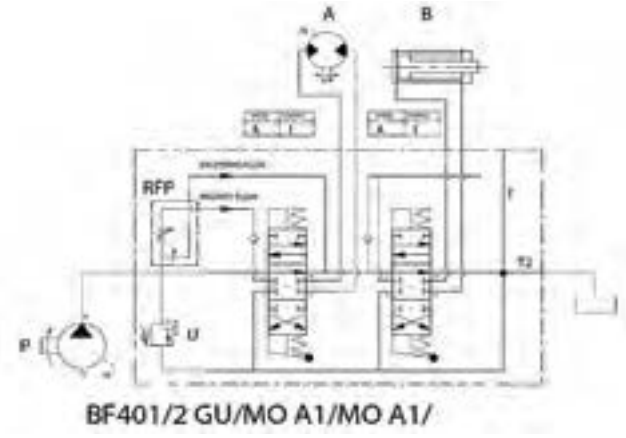
Valve Model	Number Spools	Max Flow l/min	Max Pressure bar	Service Ports A & B bsp	P & T Ports Side (Top)
BF201/1	1 TO 5	25	250	1/4”	3/8” (1/4”)
BF401/1	1 TO 6	45	250	3/8”	1/2” (3/8”)
BF701/1	1 TO 5	80	250	1/2”	3/4” (1/2”)
BF901/1	1	120	250	3/4”	3/4” (3/4”)



Example 1.

One single BF401/1 valve with a high pressure carry over supplying a single BM40/1 valve.

The flow to the motor (A) is regulated by the priority valve (PF) by means of the adjustment knob. The exceeding flow (EF) is recuperated so that it can be supplied through the high pressure carry over to the downstream single lever valve.
When the 1st valve is not in function the 2nd valve will have the full flow, and when the 1st valve ie Motor (A) is working the 2nd valve and cylinder (B) will work with the excess flow available.



Example 2.

A two lever BF401/2 valve working a motor and cylinder.

The flow to the motor (A) is regulated by the priority valve (PF) by means of the adjustment knob. The exceeding flow (EF) is recuperated so that it can be used to work the cylinder (B) at the same.
When the motor (A) is not in function, Cylinder (B) will have the full flow of the pump.

One advantage of this valve system is when the motor (A) is in function and the cylinder (B) is worked the motor will not drop in rotation speed..

For Spools and control options please see pages 49

High Pressure Carry Over, Closed Centre & Relief Valve Plugs

High Pressure Carry over Plug (CO)

The CO plug is fitted into the side tank port of the spool valve which enables the pressure and flow, when the valve is not in function, to be carried to another downstream valve or actuator .When used with the BF range of valves that have built in flow controls the plug will also enable the excess flow not used by the flow regulator to be carried downstream when the valve is in function and the full pump flow when the valve is not in function. N.B. A tank line must be taken from the top tank port of every valve in the system that has a CO plug fitted.

Closed Centre Plug (CCP)

A closed centre plug is fitted into the side tank port of the spool valve to make the valve closed centre, i.e. the pump flow will not travel through the spool valve back to tank but will stop inside the valve, i.e. ‘dead head’ the pump flow. N.B. Closed centre plugs cannot be used with the BF range of valves & care must be taken to ensure the pressure relief valve does not open to let the oil through to the tank if it is set below the pump supply pressure. A tank line must still be taken from the top tank port.

Relief Valve Plug (RVP)

A Relief valve plug is fitted in place of a pressure relief valve when it is removed from the valve.

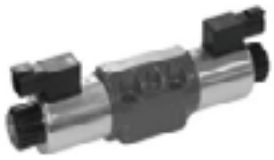
- Optimized flow paths for low losses of pressure
- Low internal leakage
- Wet pin solenoid with interchangeable coil
- Manual emergency control
- Fulfil EMC (89/336/EEC)
- Packaging in carton box



KV-4/3-5KL-6

Operation

Directional valves type KV with direct solenoid operation control the direction of the hydraulic medium flow.

A valve basically consists of a housing (1), one or two solenoids (2a, 2b), control spool (3) and return spring (4).

In 4/3 way directional valves the centre position of the spool is defined by 4 return springs which hold the spool in the neutral position. The change over to the operating position (a) or (b) is done by energizing the solenoids (2a/ 2b) respectively, whereby the solenoid plunger acts on the control spool (3) via the operating pin (5), thus clearing the corresponding flow ways and establishing relevant links between ports P, A, B and T. When the solenoid (2a/ 2b) is deenergized, the control spool (3) is returned to neutral position by the return spring (4).
In 4/2 way directional valves the centre position of the spool is defined by return spring on the opposite side of the solenoid (2a or 2b).

Change-over of the control spool (3) can be done manually by pressing the pin (6) for emergency manual override in the solenoid core.

Solenoid coil is fastened to the solenoid core (7) by retaining nut (8). Position of the coil (orientation of the connector) is pre-defined by the positioning hole on the valve housing and by the fixation pin (9) on the coil.

KVP-4/3-5KO-6

Operation

The KVP directional control valve is a proportional valve providing variable flow rates. This valve is used with control electronics. Typical applications are soft switching via adjustable ramps for the reduction of hydraulic and mechanical shocks, and electrically adjustable flow rates - speeds for automating machine functions.

This directional valves consist of a housing (1), a control spool (2), one or two proportional solenoids (3) and two return springs (4). The change-over can be done manually by pressing the emergency manual override (5).

- Manual emergency control.
- Protection of solenoid IP 65 to EN 60529 / IEC 60529.

KV-4/3-5KO-10

Operation

Directional valves type KV with direct solenoid operation control the direction of the hydraulic medium flow.

These directional valves consist of a housing (1), a control spool (3), and one solenoid (2) with two return springs (4) in 4/2-way directional valves, and two solenoids (2) with two return springs (4) in 4/3-way directional valves. In 4/3-way directional valves the centre position of the control spool is the neutral position. The change-over to the operating position (a) and (b) is done by energizing the solenoids (2) "a" and "b" respectively, whereby the solenoid plunger acts on the control spool (3) via the operating pin (5), thus clearing the corresponding flow ways and establishing relevant links between ports A, B, P, and T.

When the solenoid (2) is de-energized, the control spool (3) is returned to its neutral position by the return spring (4). The change-over can be done manually by pressing the emergency manual override (6).

KV-4/2-5KO-10-01

Directional valve with two operating position, two solenoids without springs allows the control spool to be held in the operating position (detent). The control spool remains in the operation position also when the solenoids are de-energised.

Flow rate	L/min *[GPM]*		300 *[79.2]*
Operating pressure	bar *[PSI]*	Ports A, B, P	350 *[5076.3]*
		Port T	250 *[3625.9]*
Pilot oil pressure (x-external)	bar *[PSI]*		50-250 *[725.2-3625.9]*
Pilot oil pressure (x-internal) Pre-load valve is fitted into P-port of the main valve Without Pre-load valve in the P-port of the main valve			In valve types with internal pilot oil supply (x) the spool types 2, 3, and 4 are possible only when the oil flow in the direction from P towards T achieves the flow rate Q = 150 L/min *[39.6 GPM]*, with the control spool in the centre position.
Oil temperature range	°C *[°F]*		-20 to +70 *[-4 to 158]*
Viscosity range	mm^2/S		15 to 380
Required pilot oil volume	cm^3 *[cu.in]*	2 positions valve	7,8 *[0.47]*
		3 positions valve	3,9 *[0.24]*
Mass	kg *[lb]*	Main valve	0 *[17.6]*
		4/3 pilot valve	2,5 *[5.5]*
		4/2 pilot valve	2,2 *[4.8]*
		Throttle/check valve	1,45 *[3.2]*
		Pressure reducing valve	1.70 *[3.7]*
Mounting position			Optional, horizontal for spool types 4/2
Switch-on time Solenoid change-over from the operating to the centre position	(ms)	3 positions valve 2 positions valve	60 65
Switch-off time Solenoid change-over from the operating to the centre position	(ms)	3 positions valve 2 positions valve	45 50
Filtration	NAS 1638		9
Ambient temperature range	°C *[°F]*		+60 *[122]*
Coil temperature range	°C *[°F]*		+180 *[356]*
Power	W		20 (12V supply voltage - 36W)
Voltage	V		12, 24, 48, 110, 220

The switch-on and switch-off times apply to 24 V DC solenoids.

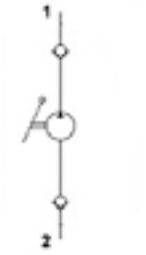
Hand Pumps Industrial Applications

Double Stroke Function auxiliary pump — GL

Part Number	Displacement cm3	Max Pressure bar	Ports size bsp
GL20	18	480	3/8” & 1/2”
GL25	28	320	3/8” & 1/2”
GL28	36	250	3/8” & 1/2”
GL30	42	220	3/8” & 1/2”
GL35	57	160	3/8” & 1/2”
GL40	87	120	1/2” & 1/2”
GL45	111	90	1/2” & 1/2”



Single Acting pump with release knob — GLR

Part Number	Displacement cm3	Max Pressure bar	Ports size bsp
GLR20	18	480	3/8” & 1/2”
GLR25	28	320	3/8” & 1/2”
GLR28	36	250	3/8” & 1/2”
GLR30	42	220	3/8” & 1/2”
GLR35	57	160	3/8” & 1/2”
GLR40	87	120	1/2” & 1/2”
GLR45	111	90	1/2” & 1/2”

Single Acting pump mounted on a 4 ltr capacity tank with a pressure release knob — GLB

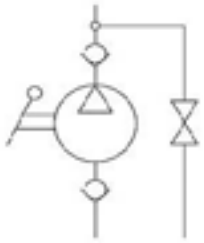
Standard tank size is 4 Litre, 10 Litre available upon request

Part Number	Displacement cm3	Max Pressure bar	Ports size bsp
GLB20	18	480	1/2”
GLB25	28	320	1/2”
GLB28	36	250	1/2”
GLB30	42	220	1/2”

Hand Pumps Mobile Applications

Single Acting hand pump double stroke function — PMSP

Pumps have a Pressure Relief valve rubber gator protection as standard



Part Number	Displacement cm3	Max Pressure bar	Ports size bsp
PMSP6RV	6	500	3/8”
PMSP12RV	12	380	3/8”
PMSP25RV	25	350	3/8”
PMSP45RV	45	280	3/8”

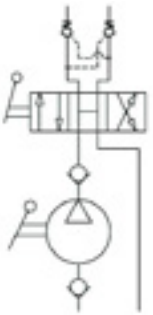
Double Acting hand pump closed centre — PMIP

Pumps have a Pressure Relief valve rubber gator protection as standard

Part Number	Displacement cm3	Max Pressure bar	Ports size bsp
PMIP6RV	6	500	3/8”
PMIP12RV	12	380	3/8”
PMIP25RV	25	350	3/8”
PMIP45RV	45	280	3/8”

Double Acting hand pump with Pilot Check valves — PMT

Pumps have rubber gator protection as standard



Part Number	Displacement cm3	Max Pressure bar	Ports size bsp
PMTP6	6	500	3/8”
PMTP12	12	380	3/8”
PMTP25	25	350	3/8”
PMTP45	45	280	3/8”

Steel Oil Tanks for hand pumps — TNK

Tanks are coated black RAL9005, supplied with air breather
Mounted Horizontally or Vertically

Part Number	Capacity Litre
TNK 1	1
TNK 2	2
TNK 3	3
TNK 5	5
TNK 7	7
TNK 10	10

Gear pumps Group 1

Group 1 Gear pumps with cast Iron end plates and bsp porting
4 Bolt European Flange with 1:8 Taper Shaft, 1 cc/rev up to 7 cc/rev

Large size Bell housings and Drive couplings for Electric Motors up to 355 kW are available with various Pump mountings.

Please contact us with your pump and Motor details…..

Damping Rods & Rings

Damping Rods are two steel rods moulded into a mineral oil resistant vulcanised rubber to fit between the electric motor and the tank cover. Damping Rods reduce the noise generated by the power transmission by approximately 3-5 dB.

Honda 4 Stroke Petrol Engines

4 Stroke Air Cooled Petrol Engines
3.6 kW (4.8 HP) up to 15.5 kW (20.8 HP)
High Power to displacement ratio
OHV Design enhances combustion efficiency
Exceeds European exhaust emission legislation
Low Fuel & Oil consumption
Easy starting with an automatic decompression system

Part number	Net Power @3600 rpm	Engine Type	Start System	Fuel Tank Volume Litre	Engine Shaft Size	Dry Weight kg

Standard DC Tail lift Packs

12, 24 or 48 Volt DC power units

2.1 cc/rev gear pump

Electric motor power 1.6kw or 2.1kw on 12 VDC, 2.2kw on 24 VDC

3, 5 or 8 Litre Plastic tank

5 or 10 litre Cylindrical Steel tank

Pressure 210 bar Continuous, 250 bar peak

Complete with suction strainer and filler breather

Relief valve is adjustable between 80-250 bar

Normally closed solenoid lowering valve with P line check valve

Part Number	Voltage	Motor Power	Pump displacement	Reservoir capacity litres	Reservoir type
TLP12/3P16	12DC	1600W	2.1 cc/rev	3	Square plastic

E60543006	FOOT MOUNTING BRACKET

Hydraulic Power Packs

Micro & Compact bespoke AC & DC Power packs

AC & DC Motors to 4KW. Pressure up to 300 bar

Single, Double & Reversible circuits for all applications

Options of hand pumps, pressure & flow controls, 2, 3 & 4 way manual or solenoid operated directional valves

Large stock of components to offer a quick build time and delivery

Bespoke design Hydraulic Power Units manufactured to customers specifications and suitable for a wide range of applications

Please contact us with your requirements.....

Tank Inspection Covers & Electric Oil Level Switches

Inspection covers for Oil Tanks

Die cast Aluminium supplied with a Gasket

Part Number	Diameter	Number of Mounting holes	Size of Mounting holes
SI 275G	275 mm	6	9 mm
SI 400G	400 mm	8	9 mm
SE 350G	350 mm	4	11.5 mm
SE 475G	475 mm	6	11.5 mm

Electric Oil Level Switches

An electrical signal is supplied when the min. or max. (or both) oil levels are reached.
Available in a Flange mount or a M18x1.5 mm male thread mount
Normally closed electrical switch.

Flange mount … Minimum Level	Min & Max Level	Depth of Rod Into tank (mm	Suitable for Tank type

Motor Brakes

HYDRAULIC DISC BRAKES MLB

MLB Brakes are a wet disc hydraulic brakes, spring loaded brake function and hydraulic pressure is required to release the brake. Suitable for MAP/MAR and MAS type Motors.

Model code	Min. Static Torque Nm	Min. Opening Pressure bar	Max. Opening Pressure bar	Min Oil Volume for Brake Release cm^3	Oil Volume cm^3	Max. Pressure in drain bar	Weight Kg
MLB43	410-450	17-23	300	7-8	50-120	0.5	9

Part Number	Input Shaft	Output Shaft

34106	1" SAE 6 B Spline	40	37

Petrone Bi-directional Group 2 Gear Motors

High quality and efficiency, low noise genration Gear Motors from 4 cc/rev up to 26 cc/rev
High Pressure Capability with many different options of Mounting flange and shaft
Bi-directional Motors come with a drain port on the rear cover
High Temperature seal kit is available

Part Number	cc/rev	Max continuous Pressure bar @ 1500 rpm	Max peak Pressure bar @ 1500 rpm	Min speed rpm	Max speed rpm	Suction Port bsp	Pressure port bsp

Heat Exchangers ST

Air and Oil Heat Exchangers, (Air Blast Coolers) are designed to be used on the return line of the Hydraulic System.
The Aluminium cooler element provides a high conductivity and thermic exchange.
Nominal Pressure 16 bar, Test Pressure 25 bar.

Diaphragm Accumulators
Energy Accumulators/Pulsation Dampeners

Electron-beam welded Hydraulic Accumulators
- **Large volume and performance range**
- **0.7 to 3.5 Litre Capacity**
- **Pressure range up to 350 bar (high bursting strength)**
- **Low maintenance Design**
- **Long service life**

Energy accumulation
- **Controlled energy delivery for hydraulic applications**

Application-specific design
- **The most varied diaphragm and housing materials**
- **Refilable**
- **Low permeation**

Pulsation damping
- **Vibration and noise reduction with pressure surges**
- **Efficiency and extension of service life**

Bladder Accumulators
Carbon Steel EN14359 97/23/EC

Hydropneumatic Accumulators
Volumes up to 500 Litre Capacity
Maximum working pressures up to 380 bar
Repairable bladder accumulators include a carbon steel/stainless steel, forged/welded body, a repairable bladder, a nitrogen valve connection and an oil valve connection with seals.
Higher pressures are available up to 680 bar (10’000 psi) (Design ASME U-STAMP)

Notes

Hycon Limited Terms and Conditions of Sale

1.Where to find information about us and our products. We are Hycon Limited (registered in England and Wales with company number: 03316060). Our registered office address is at Wyvols Court Basingstoke Road, Swallowfield, Reading, Berkshire, England, RG7 1WY. Our VAT number is GB642234366. You can find everything else you need to know about us and our products on our website www.hycon.co.uk in our catalogue or from our sales staff before you order. We also confirm the key information to you in writing before or after you place your order (depending on how you purchase product(s) from us) either by email, in your online account or on paper. 2.We don't give business customers all the same rights as consumers. For example, business customers can't cancel their orders, they have different rights where there is a problem with a product, and we don't compensate them in the same way for losses caused by us or our products. We have clearly stated where a term applies just to businesses or just to consumers. You are a business customer if you are buying products wholly or mainly for use in connection with your trade, business, craft, or profession, even if you are an individual. 3.If you are a business customer this is our entire agreement with you. If you are a business customer these terms constitute the entire agreement between us in relation to your purchase. You acknowledge that you have not relied on any statement, promise, representation, assurance or warranty made or given by us or on our behalf which is not set out in these terms and that you have no claim for innocent or negligent misrepresentation or negligent misstatement based on any statement in this agreement. 4.We only accept orders when we've checked them. We will confirm we have received your order. We will then contact you to confirm we've accepted your order, unless we reject your order for any reason in which case we will contact you to let you know (see clause 5 below). 5.Sometimes we reject orders. 5.1.Sometimes we reject orders, for example, because a product is unexpectedly out of stock, because a credit reference we have obtained is unsatisfactory because you are a consumer located outside the UK (we only supply to customers outside the UK who are business customers) or because the product was mispriced by us. When this happens, we let you know as soon as possible and if applicable refund any sums you have paid. 5.2.We may also offer you an alternative product if, for example, the product you have ordered is out of stock or has a long 'lead time' (see clause 9 and clause 35.3). If we do this and you accept the alternative product, this contract will be amended to apply to the alternative product instead. If you do not accept the alternative product, you can either wait for the original product (if applicable) or terminate the contract. 6.The price of the product(s) shall be the price notified to you (on the website, over the telephone, by email or on social media) when you place your order. A full price list is available by email on request but please note that this is an extremely large file so not all systems will accept the file size. Please contact us if you would like any further information about pricing. 7.We charge you when you place your order, or we supply your product to you. When we charge you will depend on whether you are a business customer or a consumer and, if you are a business customer, whether you have an account with us. If you are a business customer and have an account with us, you may have a credit limit which means we will charge you when we supply your products to you. For all other customers, we will charge you when you place your order. You will own the product(s) once we have received payment in full. 8.If you are a business customer with an account and you have a credit limit, we can invoice you for the product(s) on or at any time after the completion of delivery.8.1.You must pay each invoice we submit within 30 days of the date of the invoice (or, if we have agreed different credit terms with you in writing when you set up your account, in accordance with those credit terms), in full and cleared funds to the bank account we nominate in writing to you. 8.2.If the price of the product(s) you order exceeds your credit limit, we may charge you when you place your order, or before delivery of the product(s), instead of invoicing you after delivery. 8.3.If your credit is overdue on your account, we may suspend supply of our products to you until you have settled your account. This clause 8.3 is in addition to, and does not limit our right to charge interest on overdue payments under clause 13.9.Delivery dates are estimates only. If we quote a delivery date when you place your order, that date is an estimate only and is not guaranteed. Some products may not be available immediately when you order them but can be pre-ordered, so may have what we call a 'lead time'. Where products have a lead time, we will update you when we know when they are likely to be delivered, but those dates will still be estimates and are not guaranteed. 10.If you are a business customer based outside the UK, part of the contract will be governed by the INCOTERMS 2020. If you are a business customer based outside the UK, we will rely on INCOTERMS 2020 to govern the relevant parts of the contract between us. The INCOTERM 2020 which will apply will be stated Customs Declaration CN23 when you place your order. In the circumstances where a provision of these terms and conditions conflicts with the relevant INCOTERM 2020, the relevant INCOTERM 2020 will prevail but the remainder of these terms and conditions will remain in full force and effect. 11.If you are a business customer, risk in the product(s) passes on delivery. If you are a business customer, risk in the product(s) passes to you on completion of delivery. 12.If you are a business customer, you have no set-off rights. If you are a business customer you must pay all amounts due to us under these terms in full without any set-off, counterclaim, deduction or withholding (other than any deduction or withholding of tax as required by law).13.We charge interest on late payments. If we're unable to collect any payment you owe us, we charge interest on the overdue amount at the rate of 3% a year above the Bank of England base rate from time to time. This interest accrues on a daily basis from the due date until the date of actual payment of the overdue amount, whether before or after judgment. You pay us the interest together with any overdue amount. 14.We pass on increases in VAT. If the rate of VAT changes between your order date and the date we supply the product, we adjust the rate of VAT that you pay, unless you have already paid in full before the change in the rate of VAT takes effect. 15.We're not responsible for delays outside our control. If our supply of your product is delayed by an event outside our reasonable control, we will contact you as soon as possible to let you know and do what we reasonably can to reduce the delay. As long as we do this, we won't compensate you for the delay, but if the delay is likely to be substantial, you can contact our Customer Service Team: by phone on 01189 782 555 or via email to sales@hycon.co.uk, to end the contract and receive a refund for any products you have paid for in advance, but not received, less reasonable costs we have already incurred. 16.Products can vary slightly from their pictures. A product's true colour may not exactly match that shown on your device or in our catalogue or its packaging may be slightly different. 17.You're responsible for making sure your measurements are accurate. If we are making or supplying a product to a drawing, design, specification and / or measurements provided by you, you are responsible for making sure those measurements are correct. Contact our Customer Service Team if you need to talk to us about any measurements: 01189 782 555 or sales@hycon.co.uk. 18.If we are making or supplying a product to drawing, design, specification and / or measurements provided by you, you need to make sure you have the rights and permissions to enable us to do that. If you are a business customer, you must pay us for all losses we suffer or incur in connection with any claim made against us that we have violated someone else's rights (for example, intellectual property rights) by making or supplying a product based on your drawing, design, specification and / or measurements. 19.We charge you if you don't give us information we need. We may charge you additional sums if you don't give us information, we've asked for to enable us to supply the product(s) to you or if you don't do preparatory work (e.g., for installation) as agreed with us. 20.If you ordered the incorrect product(s) and wish to return the product(s) you ordered, we may (at our discretion) accept the return of those incorrect product(s). If we do accept return of those product(s), we will charge a minimum administration fee of 15% of the price of the product(s) and we will refund the rest of the price to you by way of credit note only. If you are a consumer, this clause will only apply after your right to change your mind has expired (see Your legal right to change your mind). 21.If you are a consumer and you bought online, over the telephone, by email or by social media you have a legal right to change your mind. 22. Your legal right to change your mind. For most of our products bought by consumers online, over the telephone, by email or over social media, you have a legal right to change your mind about your purchase and receive a refund of what you paid for it, including the delivery costs. You have 14 days to change your mind and cancel the contract and if you do, you must pay the costs to return the product(s) to us. This right is subject to some conditions, as set out below. 23.When you can't change your mind. You can't change your mind about an order for: 23.1.products sealed for health protection or hygiene purposes, once these have been unsealed after you receive them. 23.2.products that are made to your specifications or are clearly personalised. 23.3.products that are likely to deteriorate or expire rapidly (for example, power packs will be contaminated once they are run); and 23.4.products which become mixed inseparably with other items after their delivery.24.The deadline for changing your mind. If you are a consumer and you change your mind about a product bought online, by email order, over the telephone or on social media, you must let us know no later than 14 days after the day, we deliver your product(s). If the product(s) are for regular delivery (for example, a subscription), you can only change your mind after the first delivery. If the goods are split into several deliveries over different days, the period runs from the day after the last delivery. 25.How to let us know. To let us know you want to change your mind, contact our Customer Service Team on 01189 782 555 or at sales@hycon.co.uk, or in writing to us at Hycon Limited Units 22-25, Kingsclere Business park, Kingsclere RG20 4SW. Alternatively, you can fill in the cancellation form which is available online at www.hycon.co.uk, in a versioin we have emailed to you (if applicable), in the version at the back of our catalogue. You can send the form to us by post or email at the details in this clause. 26.You must return the product at your own cost. If you exercise your right to change your mind, you must return the product(s) to us within 14 days of your telling us you have changed your mind. You must pay the costs of returning the product(s) to us. You can: 26.1.bring the product(s) to Hycon Limited, Units 22-25 Kingsclere Business Park, Kingsclere, Newbury, RG20 4SW (find our address at: www.hycon.co.uk You will need your email receipt and the card you paid with. 26.2.send the product back to us, using an established delivery service. If you do this, you should keep a receipt or other evidence from the delivery service that proves you have sent it and when you sent it. If you don't do this and we don't receive the product(s) at all or within a reasonable time, we won't refund you the price.For help with returns, contact our Customer Service Team: on 01189 782 555 or at sales@hycon.co.uk. 27.We only refund standard delivery costs. We don't refund any extra you have paid for express delivery or delivery at a particular time. 28.We reduce your refund if you have used or damaged a product. If you handle the product in a way which would not be acceptable in-store, we reduce your refund, to compensate us for its reduced value. For example, we reduce your refund if the product's condition is not "as new", price tags have been removed, the packaging is damaged, or accessories are missing. In some cases, because of the way you have treated the product, no refund may be due. Our Customer Service Team: on 01189 782 555 or at sales@hycon.co.uk can advise you on whether we're likely to reduce your refund. 29.When and how we refund you. If the product(s) haven't been delivered to you at the time you change your mind, we refund you as soon as possible and within 14 days of you telling us you've changed your mind. If you are sending the product(s) back to us, we refund you within 14 days of receiving them back from you (or receiving evidence you've sent them to us). We refund you by the method you used for payment. We don't charge a fee for the refund.You have rights if there is something wrong with your product. 30.Return the product to us. If you think there is something wrong with your product, you must either bring it into our store or contact our Customer Service Team 01189 782 555 or sales@hycon.co.uk. We may ask you questions to help us determine if there is something wrong with the product. For example, we may want to inspect the product and we may ask you questions to help us understand how you have been using the product. If we do this, you must allow us the opportunity to inspect the product and you must give us any details we request about the flow rate and pressure in the hydraulic circuit where you are using the product, and the way the product is used within the hydraulic circuit, when we request them. 31.Your rights and remedies if you are a consumer. We honour our legal duty to provide you with products that are as described to you on our website or in our catalogue, and that meet all the requirements imposed by law. Your legal rights are summarised below. These are subject to certain exceptions. For detailed information please visit the Citizens Advice website www.citizensadvice.org.uk. Remember too that You have several options for resolving disputes with us.Summary of your key legal rights

The Consumer Rights Act 2015 says goods (i.e., the products we sell) must be as described, fit for purpose and of satisfactory quality. During the expected lifespan of your product your legal rights entitle you to the following:

- up to 30 days: if your goods are faulty, then you can get a refund.
- up to six months: if your goods are faulty and can't be repaired or replaced, then you're entitled to a full refund, in most cases.
- up to six years: if your goods do not last a reasonable length of time, you may be entitled to some money back.
- If the fault can't be fixed, or if it hasn't been fixed within a reasonable time and without significant inconvenience, you can get some or all your money back.

32.Your rights if you are a business.

We warrant that on delivery the product(s) shall: 32.1conform in all material respects with their description and any relevant specification. 32.2.be free from material defects in design, material and workmanship. 32.3.be of satisfactory quality (within the meaning of the Sale of Goods Act 1979); and 32.4.be fit for any purpose held out by us. 33.Your remedies if you are a business. Unless an exception applies (see Exceptions to business customers' warranty.) if: 33.1.you give us notice in writing within a reasonable time of discovery that a product does not comply with the business customer warranty; 33.2.we are given a reasonable opportunity of examining such product and / or you give us, on request, the opportunity to check the application of the product (i.e. how you are using it), including by giving us any details we request about the flow rate and pressure in the hydraulic circuit where you are using the product, and the way the product is used within the hydraulic circuit, when we request them; and 33.3.you return such product to us at your cost, we shall, at our option, repair or replace the defective product, or refund the price of the defective product in full and this will be your only remedy for breach of the warranty. These terms shall apply to any repaired or replacement products supplied by us.

Hycon Limited Terms and Conditions of Sale

34.Exceptions to business customers' warranty. We will not be liable for a product's failure to comply with the business customer warranty (see Your rights if you are a business.) if: 34.1.you make any further use of such product after telling us it is non-compliant. 34.2.the defect arises because you failed to follow our oral or written instructions (including any manufacturer's instructions or specifications we provide to you relating to the product) as to the storage, installation, commissioning, use or maintenance of the product or (if there are none) good trade practice. 34.3 the defect arises because we followed any drawing, design or specification supplied by you. 34.4.you alter or repair or dismantle the product without our written consent; or 34.5.the defect arises because of fair wear and tear, wilful damage, negligence, or abnormal working conditions. 35.We can change products and these terms. 35.1.Changes we can always make. We can always change a product: 35.1.1.to reflect changes in relevant laws and regulatory requirements. If the change is significant then we will contact you to let you know, and offer you the chance to cancel the contract and receive a refund for products you have paid for but won't receive; and 35.1.2.to make minor technical adjustments and improvements, for example to address a security threat. These are changes that don't affect your use of the product. 35.2.Changes we can only make if we give you notice and an option to terminate. We can also make the following types of change to the product or these terms, but if we do so we'll notify you and you can then contact our Customer Service Team: on 01189 782 555 or at sales@hycon.co.uk to end the contract before the change takes effect and receive a refund for any products you've paid for in advance, but won't receive. 35.3.We may adjust the price of our products and may allow you to terminate if we do. Some products may not be available immediately when you order them but can be pre-ordered, so may have what we call a 'lead time'. The nature of these products means the price of them may change between the date you place your order and the date they products are delivered to you. If the price increases, we will let you know and offer you the right to terminate the contract.

36.We can withdraw products. We can stop providing a product and withdraw it from our website or our catalogue at any time. 37.We can end our contract with you. We can end our contract with you for a product and claim any compensation due to us if: 37.1.you don't make any payment to us when it's due and you still don't make payment within 14 days of our reminding you that payment is due; or 37.2.you don't, within a reasonable time of us asking for it, provide us with information, cooperation or access that we need to provide the product, for example, details of where we should deliver the product to or specifications for a product you want us to manufacture for you. 38.We don't compensate you for all losses caused by us or our products. 38.1.1.Our liability to consumers. We're responsible for losses you suffer caused by us breaking this contract unless the loss is: 38.1.2.Unexpected. It was not obvious that it would happen and nothing you said to us before we accepted your order meant we should have expected it (so, in the law, the loss was unforeseeable). 38.1.3.Caused by a delaying event outside our control. As long as we have taken the steps set out in the section We're not responsible for delays outside our control. 38.1.4.Avoidable. Something you could have avoided by taking reasonable action. For example, damage to your own possessions or equipment, which was caused by a product we supplied and which you could have avoided by correctly following the instructions for installation or use provided with the product. 38.1.5.A business loss. Where you have purchased a product as a consumer, we are not liable for any loss you suffer in connection with your trade, business, craft or profession. 38.2 Our liability to businesses. If you're a business, then, except in respect of the losses described in Losses we never limit or exclude.: 38.2.1.we shall not be liable to you, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, for any loss of profit, or any indirect or consequential loss arising under or in connection with any contract between us; 38.2.2 our total liability to you for all other losses arising under or in connection with any contract between us, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, shall be limited to the total sums paid by you for products under that contract; and 38.2.3.if we fail to deliver the products, our liability shall be limited to the costs and expenses you incur by obtaining replacement products of similar description and quality in the cheapest market available, less the price of the products. We shall have no liability for any failure to deliver the products to the extent that such failure is caused by your failure to provide us with adequate delivery instructions or any other instructions that are relevant to the supply of the products. 38.3.Losses we never limit or exclude. Nothing in these terms shall limit or exclude our liability for any matter in respect of which it would be unlawful for us to exclude or restrict liability, including: 38.3.1.death or personal injury caused by our negligence, or the negligence of our employees, agents or subcontractors (as applicable); 38.3.2.fraud or fraudulent misrepresentation; 38.3.3 breach of the terms implied by section 12 of the Sale of Goods Act 1979 or section 2 of the Supply of Goods and Services Act 1982; 38.3.4.defective products under the Consumer Protection Act 1987. 38.4.No implied terms about goods. Except to the extent expressly stated in Your rights if you are a business., we exclude all terms implied by sections 13 to 15 of the Sale of Goods Act 1979 and sections 3 to 5 of the Supply of Goods and Services Act 1982. 39.We use your personal data as set out in our Privacy Notice. If you are a consumer, how we use any personal data you give us is set out in our Privacy Notice. 40.You have several options for resolving disputes with us. Our Customer Service Team: on telephone number 0118 978 2555 or by email to sales@hycon.co.uk will do their best to resolve any problems you have with us or our products, as per our Complaints policy which is available on our website. 41.You can go to court. These terms are governed by English law. If you are a consumer then, wherever you live, you can bring claims against us in the English courts and if you live in Wales, Scotland, or Northern Ireland, you can also bring claims against us in the courts of the country you live in. If you are a consumer, we can claim against you in the courts of the country you live in. If you are a business, you irrevocably agree to submit all disputes arising out of or in connection with our contract with you to the exclusive jurisdiction of the English courts. 42.Other important terms apply to our contract. 42.1.1.You can only transfer your contract with us to someone else if we agree to this. If you're a consumer we may not agree if it may be difficult for us or detrimental to us to agree. If you're a business, you need our agreement to transfer your contract with us and it's entirely up to us whether we give it. 42.1.2.Nobody else has any rights under this contract. This contract is between you and us. Nobody else can enforce it and neither of us will need to ask anybody else to sign-off on ending or changing it. 42.1.3.If a court invalidates some of this contract, the rest of it will still apply. If a court or other authority decides that some of these terms are unlawful, the rest will continue to apply. 42.1.4.Even if we delay in enforcing this contract, we can still enforce it later. We might not immediately chase you for not doing something (like paying) or for doing something you're not allowed to, but that doesn't mean we can't do it later. 42.1.5.Any reference to "in writing" in these terms and conditions includes email. 42.1.6.If you are a business customer, any variation of this contract only has effect if it is in writing and signed by both you and us (or our respective authorised representatives). 42.1.7.If you are a business customer, any notice given by one of us to the other under or in connection with this contract must be in writing and be delivered by hand, sent by pre-paid first class post or other next working day delivery service to the other party's registered office address (or, if there is no registered office address, their principle place of business), or email to the email address sales@hycon.co,uk, and will be deemed to have been received: (a).if delivered by hand, at the time the notice is left at the proper address (unless such time is before 09:00am or after 05:00pm on a working day, or on a non-working day, in which case it shall be deemed to have been delivered at 09:00am on the next working day). (b).if sent by pre-paid first-class post or other next working day delivery service, at 9.00 am on the second working day after posting; or (c).if sent by email, at 9.00 am the next working day after transmission.The provisions of this clause 42.1.7 shall not apply to the service of any proceedings or other documents in any legal action.
